

Addressing Video- Based Test Question Scenarios

Refer to the NJ Civil Service Orientation Guide for the Police Sergeant Test Relating to the Video-Based Portion of the exam:

Part III. Exam Information

C. Video-Based Portion

In this part of the exam, candidates will again assume the role of a Police Sergeant as they view scenarios associated with the duties of a Police Sergeant. Each video will present information and circumstances which candidates will have to consider before responding to the questions.

Questions for the video portion of the exam may be presented using two formats. Candidates should be prepared to encounter the test format options as explained below:

Multiple-Choice: Following information presented in the video, questions will have up to four choices from which candidates will select one answer which BEST addresses the problem or situation.

Two-Option Format: Following information presented in the video, candidates will be presented with several follow-up questions they may wish to ask or actions they may choose to take based on the information presented. Candidates will have to choose between two options to successfully resolve the situation. The options may be phrased in different ways depending on the scenario presented in the video. Examples include:

- (b) This action is NOT required to successfully resolve the situation.

-or-

Questions in both the multiple-choice and video-based portions will be preceded by directions which will instruct candidates on how they should answer each type of question. Responses to multiple-choice and two-option test formats within the video-based portion of the exam must be marked on the answer sheet. This is done by completely filling in the appropriate space on the answer sheet which designates the letter that corresponds to their answer choice. No credit will be awarded for any answer that is not properly marked on the answer sheet. Candidates are encouraged to read each set of instructions carefully as they progress through the exam.

The following section is a narrative description of how a scenario in the video-based portion of the exam may unfold. The questions that follow are examples of the different formats candidates may see in the video-based portion of the exam. The content of the narrative description of the video scenario provided below and example questions are intended to be generic and are shown here for illustrative purposes only. Questions on the actual exam will be based on the information presented in the real video format.

Video Scenario #1 – Officer Disagreement

(The video begins with the narrator speaking along with the following information, in bullet-point format, on the video monitor)

Narrator: You are a Sergeant at a medium-sized department. Two of your officers have submitted vacation requests for the same time period. You are concerned that this could leave your shift understaffed. They have equal seniority. You have called them in to your office to discuss the situation.

(The scene begins with both officers seated at your desk as one of them begins speaking)

Officer Bell: I need this time off. I have family coming in from out of town and I can't cancel them now.

Officer Foot: No way! I take this week off every year. Everyone knows I go hunting the same week every season. This has never been a problem before. I booked this trip months in advance... I shouldn't have to cancel my plans just so your family isn't inconvenienced.

Officer Bell: So you get this week off every year just because you like to go hunting? How is that fair? Just move it back a week. I don't understand why you're making this so difficult.

(The scene ends with the narrator speaking and the instructions and a question appearing on the monitor)

Example Question – Multiple-Choice Format:

DIRECTIONS: Use the information contained in the video scenario, as well as the notes you may have taken, to choose the one **BEST** answer for the following question:

1. In this scenario, the BEST way to deal with these two officers is to
 - A. deny both vacation requests.
 - B. grant both vacation requests and pull an officer from another squad as a temporary replacement.
 - C. consult department policies regarding leave requests and staffing plans before making your decision.
 - D. let the officers know you will speak with your supervisor and then let them know of your decision.

Question #1 – Key is C

In this type of question, the directions indicate that you are to consider the details given in the scenario to choose the one BEST action from the options given. In this case, consulting your department policies before making your decision provides you with a justification for your decision. This action also indicates that you will make a decision based on policy and not an arbitrary reason, which is more likely to lead to the officers accepting the decision.

Example Question – Essential / Not Essential Format:

DIRECTIONS: Use the information provided in the video scenario, and the notes you may have taken, to consider each potential action to be taken. For each statement, choose if the action is required or not required to successfully resolve the situation.

1. Deny both vacation requests and dismiss the officers from your office.
 - (a) This action is required to successfully resolve this situation.
 - (b) This action is not required to successfully resolve this situation.

Question #1 – Key is B

In this type of question, the directions indicate that you are to consider the details given in the scenario, and consider each action separately, as you determine if the action presented is required or not required to successfully resolve the situation. In this case, denying both requests would only upset both officers and potentially cause more problems.

Question #2 - Key is B

In this type of question, the directions indicate that you are to consider the details given in the scenario, and consider each action separately, as you determine if the action presented is required or not required to successfully resolve the situation. In this case, it is not necessary to rely on your supervisor before making every decision. The officers have come to you, their supervisor, for resolution. Making a decision in this instance is your responsibility.

Questions #3 - Key is A

In this type of question, the directions indicate that you are to consider the details given in the scenario, and consider each action separately, as you determine if the action presented is required or not required to successfully resolve the situation. In this case, consulting with department policies to guide your decision shows the officers you are taking the issue seriously and are not making a decision based on favoritism or other arbitrary reasons. Consulting relevant policies will assist you in making an informed decision, which will help to resolve the situation. For this question, you should choose option (a) because the action is required.

Real Video Scenarios

1. C – Illinois v. Caballes. Answer choice A should be “reasonable suspicion” instead of probable cause. Answer choice B is incorrect because if a K9 is not on scene, the officer would need reasonable suspicion to continue to detain an occupant of a motor vehicle until the dog arrives. Answer choice D is incorrect. A K9 sniff would not automatically trigger a warrantless search. The exception to the search warrant rules would still apply however a K9 positive sniff would give officers probable cause to apply for a search warrant.
